JANUARY IS
THYROID
AWARENESS MONTH

Happy New Year!

KAMRYN'S CORNER

Happy New Year! I hope this your year is off to a great start and that you are staying warm! January is Thyroid Awareness Month. Your thyroid is located in the front of your neck and is a small gland that has a big job! It is the shape of a butterfly and is only about 2 inches long. The thyroid aids in controlling your energy level, temperature regulation, mood stabilization and regulates heart rate.

I hope you enjoy learning more about the thyroid! Please feel free to call me with any questions or concerns.
